PROFILE

I am a great software engineer and very pragmatic(keep it simple), I like to create good software and tests that support that software.
Always motivated to learn new things and grow professionally.

EXPERIENCE

SOFTWARE ENGINEER
Able.co | Sep 2019 - Present

- Work on a volunteering platform to mobilize lawyers across the USA using React and Rails.
- Alleviated technical debt by doing refactors, introducing new dependencies, improving performance.
- Implemented new user-facing flows from scratch.
- Updated our platform to rails 6

FULL STACK DEVELOPER
LWP Developers | Aug 2017 - Feb 2019

- Build user interfaces with the React library.
- Build solid APIs with Ruby on Rails
- Train the team in emerging web technologies (Rails, Vue, React, Node, Docker etc).

DEVELOPER WEB
Web-Out | Sep 2015 - Jul 2017

- Development of applications with Drupal CMS and Laravel framework.
- Implementation of the web platform of the Leoncio Prado Insurance Unit.
- Build the website of the Leoncio Prado Hospital
